Guidance & Balancing Notes

Crown & Third Eye

Set aside 10 quiet minutes each morning before screens — this protects the clarity already present in your upper chakras.

Throat

Practice voicing one honest opinion daily in a low-stakes setting, to build ease around self-expression.

Heart

Balance giving with receiving — let a friend support you this week rather than always being the one who helps.

Solar Plexus & Sacral

Pick one small creative or physical goal weekly and complete it fully; finishing small things rebuilds inner confidence.

Root

Anchor your day with a consistent wake time and short walk outdoors — grounding starts with the body, not the mind.
